Tap equipment detergents

STERICLOR L

Chloractive alkaline detergent specially for cleaning beverage tap equipment. Speciality chemicals for the removal of organic contamination of tap equipment such as proteins, fats, sugars, phenolic compounds, oxalates and biofilms. The chlorine developed during the cleaning action provides additional disinfectant action, thereby ensuring the quality and taste of the drink.

 Carton of 4 x 6 kg

 Jerry cans 12 kg

BERINA BIO TRACE

Auxiliary agent and colour indicator as an additive to chlorine-containing detergents in cleaning procedures in all sectors of the food, beverage, soft drinks and confectionery industries. Thanks to the change of the colour indicator it contains, a check can be "quickly carried out" on whether pipelines, tanks, basins, heat exchangers, filling lines, and CIP systems have been cleaned.

 Carton of 100 x 1 g bottles

DESAN ULTRA

Neutral concentrated liquid detergent specifically for manual washing of beer glasses.

 Carton of 4 x 5 kg bottles

 Carton of 12 x 1 kg bottles

STERICLOR PLUS

Single-dose powder detergent to disinfect non-alcoholic beverage, wine and beer tapping equipment and the immersion treatment of the removable parts of hot beverage dispensers.

 Carton of 100 x 90 g bottles

COMPOSTO AS 30

Liquid alkaline detergent specifically for washing soft drink, wine and beer tapping equipment.

 Jerry cans 12 kg
